## MAKE A DIFFERENCE - BOARD MEMBERS WANTED

Environmental Education and Conservation Global (EECG) is looking for individuals who are passionate about using education to advance environmental sustainability.

For over 20 years, EECG has supported the professional development of educators and resource managers and helped to increase the education capacity of organizations in Africa and Southeast Asia. EECG awards small grants and supports workshops and courses in partnership with grass-roots organizations. In 2022, EECG launched the Climate Change Collaborative (C3) to support local education efforts to address and mitigate climate change.

EECG seeks individuals who will expand the Board's expertise and perspectives. Especially welcomed are persons with international experience and nationals from countries in Africa and Southeast Asia. Because all Board business is conducted in English, candidates must be able to communicate well in English.

EECG is accepting applications to serve on its voluntary, working Board of Directors through **Friday, June 9, 2023**. To learn more about EECG and the responsibilities, expectations, and rewards of serving on its Board of Directors, click on the link below or paste the link into your browser.

If you want to be considered for an appointment to the EECG Board of Directors, we suggest that you first review the application, next look at the additional documents listed in the application, and then submit a completed application. The EECG Board of Directors will review all applications. EECG will follow-up with individuals who best match the organization's needs.
