FOR GRADES 7-12, PLEASE SEND AN EMAIL TO [KMAURER@HIGHPARKNATURECENTRE.COM](mailto:kmaurer@highparknaturecentre.com)

\$100 FOR PUBLIC SCHOOLS
\$150 FOR PRIVATE SCHOOLS

DESCRIPTION

Our curriculum-connected virtual school programs are fun, engaging, and include movement and games. Teachers will also be provided with an extended learning package with a "Check Your Understanding" worksheet and activity suggestions for post-visit learning. Our virtual school field trips will run on Zoom.

WINTER BIRDS OF THE CITY

The theme for our winter 2022 virtual school programs is winter birds of the city. Toronto has a huge diversity of birds! Through this program, students will get to learn about our feathered neighbours, which birds will stick around all through the winter and how they survive. They will also learn how to identify common birds of the city by sight and by sound, as well as examine the amazing behavioural and structural adaptations that help birds survive a cold Canadian winter!

TESTIMONIALS

"Thank you for today's session. It was so exciting for the students to welcome a special guest, and I appreciated all of the thoughtful information you taught. It was incredibly helpful for me as a teacher to be able to watch my students in a different way, so that I could focus on assessing their thinking instead of my presentation. Thank you for your flexibility and openness to joining our virtual class."

- Grade 1 teacher, 2020 virtual programs

"It was awesome! Honestly, I had no idea what the topic was going to be about. The presenters from the Nature Centre were perfect! They spoke slowly and they were engaging the students. The presentation had great visuals and the games were great! We participated in other virtual sessions during school closures and this was the best!"

- Multi-class teacher, 2021 virtual programs
